

FREESCO 0.3.x: Is a 3rd party web control panel available?

The built-in web control panel that comes with Freesco v0.3.x is nice and compact, but it lacks a few key features.

<http://freesco.blitzaffe.com/fp/> has a replacement web control panel, check it out.

As always with 3rd party add-ons: **INSTALL AT YOUR OWN RISK**

Unique solution ID: #1145
