

## Generic: What is the correct spelling of FREESCO?

See [this](#) thread on the official forum.

Hello all,

I have seen this come up again in a few different places. I have made comments to some, hopefully nice enough.

I would like to clarify the "typing" "visual spelling" of FREESCO.

As you can all tell, I type it all in CAPS, force of habit I guess. But to the point here ....

Freesco as far as I knew was to be typed like the following

FREESCO, Freesco, freesco

And as far as I knew it was not supposed to be typed like these (or direct variations)

freeSCO, FreeSCO, FREE SCO, Free SCO, FreeSco, freeSco, or any other way that makes the ""SCO"" separate

I was under the impression that FREESCO is one word, not 2 words including the "SCO" as a separate word.

Howler
