

Generic: Where can I find additional kernels for my FREESCO?

I've prepared a kernels page, with most of the available kernels for the various FREESCO versions. Make sure to read the README file found on that page. On that page you'll also find links to other kernel mirror sites.

The page can be found at <http://dingetje.homeip.net/kernels/>

A mirror (by Gnork) is at <http://www.pc-apotheek.nl/pkg/03x/kernels/>

Unique solution ID: #1095
