

Generic: How can I reach the web control panel?

Point your browser at: http://THE_IPADDRESS_OF_YOUR_FREESCO:82

The default login name is: **admin**

The password is the one you gave it during setup.

Where 82 is the default port for the web control panel, but of course if you've configured your setup with a different port, then use that.

If you get:

The page cannot be displayed then make sure you've used the correct IP address

- used the correct port
- enabled the web control panel in your FREESCO setup

Unique solution ID: #1010
