

## *Exim: Where can I find exim package for FREESCO 03x?*

Maine-iac has ported the exim, teapop and fetchmail packages for use with FREESCO 0.3.x.

His page can be found at <http://members.cox.net/maine-iac/>

The packages are also mirrored on dingetje.homeip.net:

pkg -i <http://dingetje.homeip.net/packages/0.3.x/maine-iac/exim03x>

pkg -i <http://dingetje.homeip.net/packages/0.3.x/maine-iac/teapop3x>

pkg -i <http://dingetje.homeip.net/packages/0.3.x/maine-iac/fetch03x>

These packages are not official!

---

Just recently a new exim 4.2 package for FREESCO 03x has been released!

See [this thread](#) on the official forum.

pkg -i [http://afpercu.hopto.org/packages/03x/exim\\_4.20\\_phbc50](http://afpercu.hopto.org/packages/03x/exim_4.20_phbc50)
